

## **STALLION BREEDING CONTRACT "BOEMIL TWIN TOPLEUS"**

I hereby agree to breed my mare

breed \_\_\_\_\_ reg. no. \_\_\_\_\_ born \_\_\_/\_\_\_/\_\_\_

with the

semen of your stallion named BOEMIL TWIN TOPLEUS during the covering season 2017.

The stud fee for 2017 is 1200 euro, inclusive of vat.

The chute fee is 200 euros every two doses of frozen semen.

The costs for the shipment of the semen are not included in the stud fee.

The stud fee and the chute fee will have to be paid before the semen will be sent.

This contract contains a " Birth Guarantee ". The birth is described, for the purpose of the contract, as a new life that exists and it nourishes itself without assistance. If the foal should be born dead or should die within the first 7 days after birth or the mare should abort, the owner of the stallion will undertake to re-inseminate the mare the following covering season. In this case, the owner of the mare will only pay the eventual costs for the collection and the preparation of the semen (or the chute fee) and the shipment of the semen. If the mare dies or is unsuitable for conception, the semen of Boemil Twin Topleus will be supplied for another Appaloosa or Quarter Horse mare, under the same conditions as above.

The contract is valid for three following covering seasons.

Read, understood and agreed.
